

IV ALL-RUSSIAN SCIENTIFIC CONFERENCE
WITH INTERNATIONAL PARTICIPATION
«GEODYNAMICAL PROCESSES AND NATURAL HAZARDS»
YUZHNO-SAKHALINSK, SAKHALIN REGION
6–10 SEPTEMBER, 2021

We are delighted to invite scientists and specialists, postgraduate students and students to participate in the “Geodynamic processes and natural hazards” conference that will be held on 6–10 September, 2021 in Yuzhno-Sakhalinsk. In 2021 IMGG FEB RAS turns 75, and we hope that both our old friends and scientists, who have not previously visited Sakhalin Island, will be able to share this celebration with us. The conference aims to discuss actual scientific problems that concern not only the scientists of the Russian Far East, including natural disasters, their hazard and risk assessment, as well as recent technologies of geophysical monitoring in seismically active areas and regions of high tsunami risk.

SCIENTIFIC TOPICS OF THE CONFERENCE SECTIONS:

- Modern geodynamics and problems of seismicity in the Far East and Eastern Siberia.
- Geophysical monitoring of geodynamic processes of the northwestern part of the Pacific Ocean.
- Sea dynamics.
- Recent volcanism, observation methods.
- Geological and geomorphological aspects of the strategy for the development of resources of the sea coasts of the Far East and the eastern sector of the Arctic.
- Modern problems of the oil and gas complex and their solutions.
- Environmental problems and geo-ecological risks.

Online registration for the conference participation is now open on the www.geopronh.com conference website

Within the framework of the conference, review reports and popular science lectures will be arranged for a broad audience, including senior pupils and students. The abstracts will be published by the start of the conference. The abstracts should not be more than one page in typescript (guidelines are available on the page <https://www.geopronh.com/info>).

Reports selected by decision of the Organizing Committee of the conference are supposed to be published in the «**IOP Conference Series: Earth and Environmental Science**», indexed in the Scopus database, as well as in the «**Geosystems of Transition Zones**» Journal (<http://journal.imgg.ru>) indexed by the RSCI and included in the HAC.

Several one-day trips are scheduled, which give an opportunity to become acquainted with the history and nature of Sakhalin Island. These trips do not require additional payment beyond the registration fee. Long time field excursions, unique for the guests of our region, but already became traditional, will be paid. Please choose the excursion most interesting for you when **registering online**. Excursions will be organized provided sufficient number of requests from the participants. Field clothing required.

CHAIRMAN:

Boris W. Levin, Dr. Sci. in Phys. and Math, Professor, Corresponding Member of the RAS, Scientific Supervisor of the IMGG FEB RAS.

CO-CHAIRMANS:

Leonid M. Bogomolov, Dr. Sci. in Phys. and Math., director of the IMGG FEB RAS.

Grigory I. Dolgikh, Dr. Sci. in Phys. and Math, Professor, Academician of the RAS, Vice-Chairman of the FEB RAS.

Andrey A. Kurkin, Dr. Sci. in Phys. and Math, Professor, Vice-Rector of the NNSTU n.a. R.E. Alekseev.

Valentin I. Sergienko, Academician of the RAS, Chairman of the FEB RAS.

VICE CO-CHAIRMANS:

Alexander S. Zakupin, Cand. Sci. in Phys. and Math., Leading Researcher, IMGG FEB RAS.

Dmitry P. Kovalev, Dr. Sci. in Phys. and Math, Leading Researcher, IMGG FEB RAS.

Alexander S. Prytkov, Cand. Sci. in Phys. and Math., Leading Researcher, IMGG FEB RAS.

SCIENTIFIC SECRETARY:

Marina Yu. Andreeva, Cand. Sci. in Phys. and Math., Senior Researcher, IMGG FEB RAS.

MAIN DATES up to 1 JULY, 2021 — THE APPLICATION FOR PARTICIPATION AND ABSTRACTS SUBMISSION
up to 1 AUGUST, 2021 — THE THIRD CIRCULAR.

Optimal accommodation options in Yuzhno-Sakhalinsk reasonable in terms of quality-price:

Rybak Hotel

Karl Marx Str., 51
Tel.: +7(4242)72-37-68,
+7(4242) 72-27-12
economy class

Panorama Hotel

Mira Av., 231
Tel.: +7(4242)70-08-88
